Skin DEEP

Summer has been and gone but the sun's effects remain. **NATALIE LI** and **AIMEE KAPFUNDE** test some natural, organic products to revitalise all over

Aussie Organics Body Wash
£3.99, 250ml, 7/10

An inexpensive treat to exfoliate the body, crammed full of plant cleansers, organic plant extracts, moisturising jojoba oil and crushed walnut shells. Claiming to "lift away dirt, grime and dead skin cells, leaving skin smooth and clean", it definitely lived up to its promise and left me feeling super smooth. The texture is incredibly oily and a little blob of the wash can go a very long way, so use sparingly.

Origins Modern Friction
£28, 125ml, 8/10

Coined as the "life-changing" scrub Origin's Modern Friction is nature's alternative to chemical dermabrasion.

This rich and creamy exfoliant helps to rebalance the skin's complexion, naturally removing dead skin cells, dark patches and blemishes with its marshmallow-textured rice starch and vitamin C formulation. This is suitable for women with sensitive skin.
