

## Australian Organics Moisturizing Shower & Bath Gel

The Australian Organics body care range provides the essential products that are necessary for achieving and maintaining healthy, balanced skin. Our specially formulated treatments utilize the effective combination of natural plant ingredients to cleanse, tone and protect the skin and help restore natural moisture balance.

**£3.99 250ml - Available to purchase Holland & Barrett, Waitrose.com, Johnlewi.com or click onto [www.australianorganics.com](http://www.australianorganics.com) to find local stockist in the UK**

I must admit this was a lovely bath and shower gel and cleaned skin very effectively. It says you only need a small amount and it's right! However, it is hard to only dispense a small amount. The fragrance is lovely! I recognised the Patchouli from Madonna's Like a Prayer album! It was her favourite scent at the time and it was used on the LP cover. The consistency of this shower gel is a lot thinner than others on the market. I am guessing this is due to the large amount of oils included. This did make it harder to dispense a small amount and would suggest making the bottle nozzle slightly smaller so you can control the amount you dispense. I just used this when having a shower and made my skin feel good. The ingredients list saying their natural components in English was very good (e.g Cocamide DEA - Coconut-derived). I liked the fact that there were no animal ingredients in it - although this fact was mentioned on the back, rather than the front. The size is ideal for home but bit too large to take on holiday. A bottle half the size would be ideal for travelling with. Also the bottle design is certainly secure enough to not worry about travelling with this shower gel. This has lasted a lot longer than I expected once I got the hang of dispensing small amounts, so certainly good value for money. Lovely smell, lasts a long time and value for money. It took a while to get used to the "thinness" of the product, however it smells lovely and a little goes a long way. Also makes your skin feel good. *Luci Oxenbridge - Hannah Aged 2 Years*
