WORK THAT TAN!

Deep fake Jordan-style tans are officially out this year, but that's no excuse for looking pasty! Celebrities love the cult self tan products from Xen-Tan. These tanners have time-release ingredients for a gradual building, natural looking tan:

Xen-Tan Transform
Described as a sunless tanner for people who don't like to self-tan, this smells and feels gorgeous, and gradually builds a realistic tan. Great for men and women alike.

Xen-Tan Face Tanner
Specially formulated for the face, this is jam packed with powerful antioxidants for a beautiful facial treatment and tanner in one.
