Dan Awarded the Eyre BioBotanics Active Enzyme Facial Cleanser 4.7/5

My skin felt really soft and clean after using this product. It was really easy to apply to the skin but I found it a bit difficult to remove, it took me several rinses to get it off, but the end result was very good. Fantastic design! After use my skin was soft, very clean, and no longer dry after shaving too. The packaging was not too big and nice and light in weight. With the product having minimal wastage it gives great value for money. Great product, lightly fragranced, leaves skin feeling soft and clean, men should most definitely not be put off by it not rinsing well for the first time because it works great. *Dan Ablett – Jessica 20 Months*

Mr Awarded the Eyre BioBotanics Active Enzyme Facial Cleanser 4.7/5

The product left my face feeling very clean and fresh. I found it very easy to apply and to dispense. The nozzle was much better than a pump action dispenser that I have used before as I found it easier and quicker. My skin felt fresh and my face felt healthy for the entire day after using. The design of the bottle was good and it was very simple and convenient to use. The bottle is also nice and compact and would be very suitable for taking on holiday with you. However, the cream has only lasted us for just over a month so I personally would not consider this value for money. But I was very pleased with the cream and found it a pleasure to use!

Gary Awarded the Eyre BioBotanics Active Enzyme Facial Cleanser 3.5/5

I was a little worried at first because I always use soap and have never used a facial cleanser. But the product looked nice and smelt nice too. The cleanser felt a lot nicer than soap and cleaned the skin well. It was very easy to apply once squeezed into my hands but I found the pump to be a little small and fiddly. The design of the bottle is quite discreet, I liked the plain design but I did not like the pump. It does seem a little expensive but it does work. I was really surprised that it made my face feel soft. I've never used cleanser before and thought it was a bit girly but I really liked this and would definitely use it again!
